Clipperton - FO0XX The 1986 Clipperton crew say they will transmit on the following frequencies for their May 5-11 operation: 1827, 3505, 3795, 7005, 7080, 14020, 14180, 21020, 21295, 28020, and 28595. They will **listen up only**; no QSOs on frequency. QSL via Yasme. Check 14180 for late news. Operators are W6OAT, AI6V, N7NG, W6RGG, and W6SZN. **TDXB** Comment: If they really wanted to work EU, why didn't they pick SSB frequencies below the US phone subbands?

Revilla Gigedo - XF4 If their XF4 license comes through, the Clipperton crew will stop at Clarion Island in the Revilla Gigedo group on April 28, for one day only. XF4 is actually higher on Europe's Most Wanted list than Clipperton (#8 vs. #18), and the operators ask that only those stations needing XF4 as a new one call. [Good luck! -ed.]

ITU Geneva - 4U1ITU Fred Matos W3ICM hopes to sneak away from his AM broadcast band conference to operate from this station during the next two weeks. Fred says 4U1ITU will be on AMTOR "shortly."

XEJFTW Bruce Draper AA5B says this is a legitimate call assigned by the Mexican government, until mid-1986. He created havoc with the call during the WPX, when even the die-hard prefix-hunters called him a fake. QSL via home call.

Mount Athos Controversy

"Long live the ham spirit. DL7FT is again trying to prove his intolerance by signing DL7FT/SV/A today the 27 of March 1986. As usual he hasn't got a permit neither is he in Mt. Athos territory but in a camping far away. Please let your readers know in order to save time and money. Amateurs of the example of DL7FT should be ignored and avoided." - Manos, SV1IW

"While Frank was running a pileup on 14195 at about 0630Z on Friday [Mar. 28], the Greek PTT is reported to have come on frequency stating that he was operating illegally and would be arrested later that day....[He stayed on the air through Sunday, as planned.] The Greek Association, RAAG, informed DXNS by telephone on Saturday that the operation was illegal as Frank did not have authority to operate from Mt. Athos. Frank is reported to have told Don Search that he 'has permission from some monks.' If DL7FT, DJ5CQ, and SV0BV were all able to operate openly without intervention by the PTT and apparently with the cooperation and assistance of the monks, is it not time for the ARRL to accept such operations for DXCC credit?" - DX News Sheet, from RSGB

Was DL7FT in Mt. Athos? Did he have a valid Greek license? Did he have written premission from the monks acceptable to the DXCC desk? TDXB is checking it out. Meanwhile, save your postage.

P.S. Frank said the monks told him this would be the last operation granted permission!
